

NINO FALANGA

Graphic & UI/UX Designer

ABOUT ME

Creator of Wonderpapers and internationally experienced Graphic UI/UX designer, currently based in Rio de Janeiro, Brazil

Recently earned a Postgraduate Degree in Digital Design at Institute of Design IED Rio and previously a MA in Communication Design at UAL Central Saint Martins College of Arts and Design in London. Excellent interpersonal skills as well as flexible personality: qualities obtained mostly from working in close contact with clients and customers with different cultures, traditions and realities.

Knowledgeable in Adobe Creative Suite and always curious on new techniques.

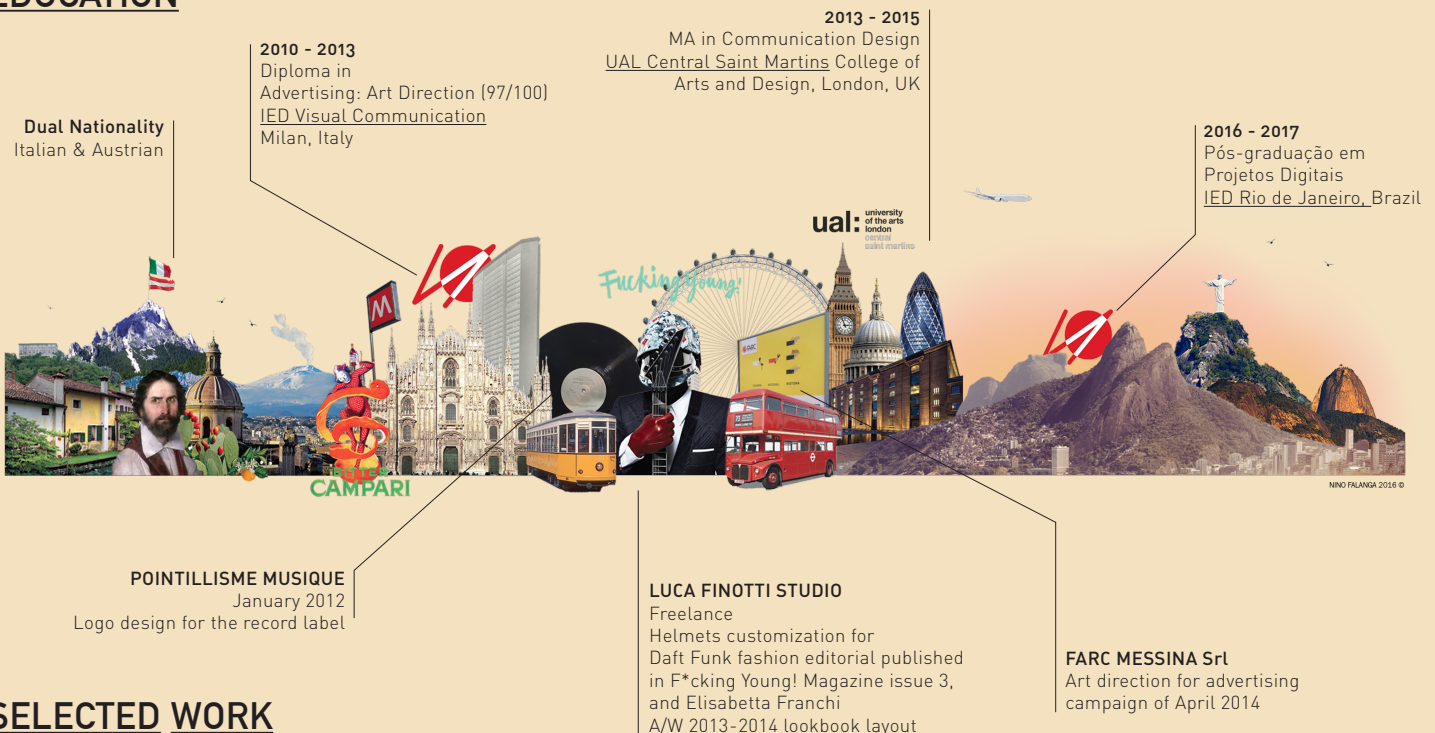

My main skills and interests lie in branding projects as well as graphic design and ideas generation. My passion about the field led me to a publication in an international fashion magazine, my first billboard campaign in 2014, and the visual identity design for the MA Work in Progress Show 2015 at Central Saint Martins, just to name a few.
